JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

VII. *An Account of one Edmund Melloon, Born at Port Leiceſter, in Ireland, who was of an extraordinary Size. Communicated by Dr. William Muſgrave, Fellow of the College of Phyſicians, and R. S.*

THE Measures of ſome of the Parts of an Iriſh Man ſhewn at *Oxford*, was communicated to me by *Dr. Plot*, he was Seven Foot Six Inches high, his Finger Six Inches Three Fourths long, the Length of his Span Fourteen Inches, of his Cubit Two Foot Two Inches, of his Arm Three Foot Two Inches and an Half, from the Shoulder to the Crown of his Head Eleven and Three Fourths, his Name *Edmund Melloon*, he was Aged Nineteen Years, *Anno 1684.* and Born at *Port Leiceſter* in *Meath*, in *Ireland*.

VIII. *An Account of the Diſſection of a Dog that had Mercury injected into one of the Jugulars. By Dr. Chriſtoph. Pitt.*

THE Mercury was thrown out of the Blood into the Cavity of the Abdomen, as likewiſe ſome Appearance of it in the other Cavities of the Body.

All the Glandules were very turgid, and full of Liquor, eſpecially in the Ventricles of the Brain, and all round there was a great Quantity of Serum. This may be called a true *Hydrocephalus*.

It being a chance Dog, and having no Notice of what had been done on him, I could not ſo well obſerve whether it would work on him by Salivation, whether it made
